BOULDER COUNTY, COLORADO

I am sending you this letter in concern about Ted Peyton's release hearing. I would like to point out the fact that Ted Peyton is still in denial. He needs to admit and take responsibility for his lude conduct.

This is a man who sexually abused me and took advantage of me as a young innocent boy. I trusted Ted Peyton, I thought he was my friend but he betrayed my trust. Ted Peyton denied me my right to a normal, healthy innocent childhood. Because of Ted Peyton's selfishness and his need for sexual gratification he has damaged my life forever.

Ted Peyton's deviate unspeakable actions have cost me and my family very dearly. Not only financially but emotionally and mentally. I will never have another childhood or another chance to live as a young innocent boy. My parents have been robbed of many, many things that normal children and parents do throughout life together as a family.

I have spent much money and many hours in therapy trying to reverse the affects of Ted's conduct. I am permanently scared from a suicide

attempt directly related to Ted Peyton's sexual abuse.

I truly feel that one year in prison could not possibly rehabilitate a man who will not even accept responsibility for such ~~x~~ horrible crimes. Ted Peyton has shown no remorse.

At this time I would like to ask the court to deny him any sort of early release or show him any leniency of the sentencing previously imposed on him. An early release would give Ted Peyton the freedom to sexually molest and abuse other innocent children.

Sincerely,
